

About Your Insurance

Vision insurance will assist in payment of your eye care services including a routine eye exam, and/or glasses **or** contact lenses. Vision insurance **does not cover diagnosis, management, or treatment of eye diseases.**

Medical insurance will be filed if you complain of having any eye health problems or systemic health problems that have ocular complications.

If you have both vision and medical insurance, our office will, as a courtesy, file what is presented at the time of service.

Medical plans consider refraction (eyeglass prescription) a “vision” service not a “medical” service. If requested, a fee of \$56 is collected at the time of service in addition to any co-payments your medical insurance may require. If your medical insurance is filed, your vision insurance will not cover the refraction charge.

If some fees are not paid by your insurance plan, we will bill you for any unpaid deductibles, co-pays, or non-covered services as allowed by the insurance contract.

I have read and understand these policies.

Patient signature (or parent/guardian signature if patient is a minor)
